36 DEFINITION OF TERMS

38 ADDENDUM

METHODOLOGY

This Report includes data on in-house compensation that Major, Lindsey & Africa (MLA) has collected throughout 2015 and 2016. The data is drawn from placements made by MLA in 2015 and 2016 as well as data collected through questionnaires submitted by in-house counsel.

The total number of respondents from which the data was collected is 2,207.

- **2016: 268** General Counsel/Chief Legal Officer
990 Non-General Counsel
- **2015: 232** General Counsel/Chief Legal Officer
717 Non-General Counsel

The data collected for each position included the following:

- Base salary in 2015 and 2016
- Cash bonus in 2015 and 2016
- Law School graduation year
- Primary practice area
- Position – either General Counsel or Non-General Counsel
- Company revenue in fiscal years 2015 and 2016
- Company industry

Only those positions that contained information for the category analyzed were included in calculations. For example, if company revenue was unavailable, the associated data point was not included in the final reported numbers of average, median, maximum and minimum for company revenue.

A list of terms used in this report can be found on page 36.

The Addendum on page 38 lists the number of data points for each calculation.

Equity is not included in this report though we recognize for some positions it can account for a significant part of total compensation.

In order to respect confidentiality this report does not disclose any information about individuals or individual companies.

GENERAL OBSERVATIONS

Overall Compensation

General Counsel saw strong gains in total compensation from 2015-2016.

Total compensation for General Counsel increased 9.6% between 2015 and 2016. While base salaries for General Counsel increased by only 1.3%, bonuses increased 38% from 2015 to 2016.

The difference can be attributed to several factors.

- › The role of the GC has dramatically changed over the years and the GC is now seen as an important and valuable partner to the C-suite. With this growing influence, we are seeing GC compensation rise to be more in line with other C-suite positions. Previously, a GC's compensation might be evaluated at 60-65% of the CFO's. Today, that compensation gap has shrunk.
- › The economy has grown from 2015 to 2016 and therefore companies are able to pay larger bonuses.
- › C-level executives have more incentive based compensation—sometimes as much as 40% to 60% of their base salary—and the same is now true of the GC.

Non-General Counsel compensation showed very little variation between 2015 and 2016. Base salaries went from an average of \$210,000 in 2015 to an average of \$208,000 in 2016. The average bonus dipped from \$71,000 in 2015 to \$68,000 in 2016.

Gender Differences

In 2016, compensation for male in-house counsel outpaced female in-house counsel at all levels.

In 2016, total compensation for male GCs was 17.5% higher than female GCs. While base salaries for male GCs were 6.3% higher than female GCs, male GC bonuses were 31% higher than those of female GCs. The maximum bonus reported for a male GC was \$3 million, while the highest reported female GC bonus was \$675,000.

The reason for the disparity may be due to several factors:

- › There was a disproportionate sample size for bonus data in our report: 42 female GCs reported their bonuses vs. 126 male GCs. Female bonuses represented 25% of the total data pool. In the Fortune 500, 134 or 26.8% of the companies have female General Counsel. Given the very close correlation in the male to female ratio between the Fortune 500 and our data, we believe a larger data sample would show similar results.
- › In some cases, a GC's bonus is determined by a self-assessment against various performance metrics set out by their company. In our work, we have observed some female GCs assessing themselves more critically than their male counterparts assess themselves.
- › In some instances, we have observed that male GCs may be more inclined to take positions at "high-risk" companies such as technology start-ups. Those opportunities also offer the prospect of high rewards for bonuses.
- › In some organizations, individuals have the opportunity to make a case for the bonus they think they deserve. Behavioral patterns suggest that males may be more assertive and ask for more money than their female counterparts.

Similarly to female GCs, female non-General Counsel in 2016 made 8.2% less than their male counterparts. There bonuses were 15% less than male non-GCs.

Regional Differences

In 2016, in-house counsel at companies based in the Northeast had the highest levels of compensation of any other region of the country.

Average total compensation for GCs in the Northeast region was \$520,000, followed by GCs in the Midwest at \$445,000 and the West at \$403,000.

Average total compensation for non-General Counsel in the Northeast region was also the highest at \$267,000, followed by the West at \$258,000 and the South at \$247,000.

Continued on next page ›

While initially one may expect the West, with its high profile and wealthy technology companies, to rank higher in GC total compensation, in reality the West is also home to a number of smaller start-up companies that offer lower compensation packages. Notably, compensation at Silicon Valley companies tends to be stock options and restricted stock – values that are not captured in this report.

It is not surprising the Northeast continues to rank first in total compensation for non-GCs. It's also not surprising that compensation for non-GCs in the West is also high. Non-GCs are not getting the equity upside in areas like Silicon Valley but are still living in a region with a very high cost of living, therefore pushing the non-GC total compensation up.

Compensation and Industry

From 2015 to 2016, wholesale trade (33%), finance/real estate/insurance (32%) and public utilities and transportation (29%) industries showed the greatest increases in total GC compensation.

For non-General Counsel, total compensation increased over 10% from 2015 to 2016 in the finance/real estate/insurance (16%) and retail trade (12%) industries.

- › It is no surprise that highly regulated and specialized industries such as finance and utilities/energy are willing to pay a premium for specialized talent. For both GC and non-GCs, bonus numbers in 2016 for the finance industry were significantly higher than other industries.
- › The increase in compensation for lawyers working in transportation and public utilities could also be due in part to consolidation throughout the industry.
- › There is some surprise at the compensation level for retail trade, as the industry overall is struggling. This as well could be due to consolidation in the industry.

Revenue and Compensation

Not surprisingly, the data indicates the larger the company revenue, the greater the total compensation for General Counsel and non-GC positions. There does

appear to be a marked increase between companies with \$2-3 billion in revenue and companies with \$3-4 billion in revenue companies for General Counsel.

A possible reason is the size of the legal department. A larger company will have more lawyers and teams of lawyers within the legal department. In that case, the management experience of the GC becomes an important and valuable factor resulting in increased salary.

Bonuses for GCs by company revenue are significantly higher than non-GCs at the same companies. This is not unexpected as a GC is one of the top 4 or 5 individuals at an organization, so a higher percentage of the compensation will potentially be in bonus form.

Practice Area

In general, it is difficult to draw conclusions based on practice area for an in-house attorney. In smaller legal departments of 3-10 lawyers, the majority of lawyers are “generalists.” However, not surprisingly, in-house counsel at companies in highly regulated industries such as banking & finance and healthcare receive the highest total compensation.

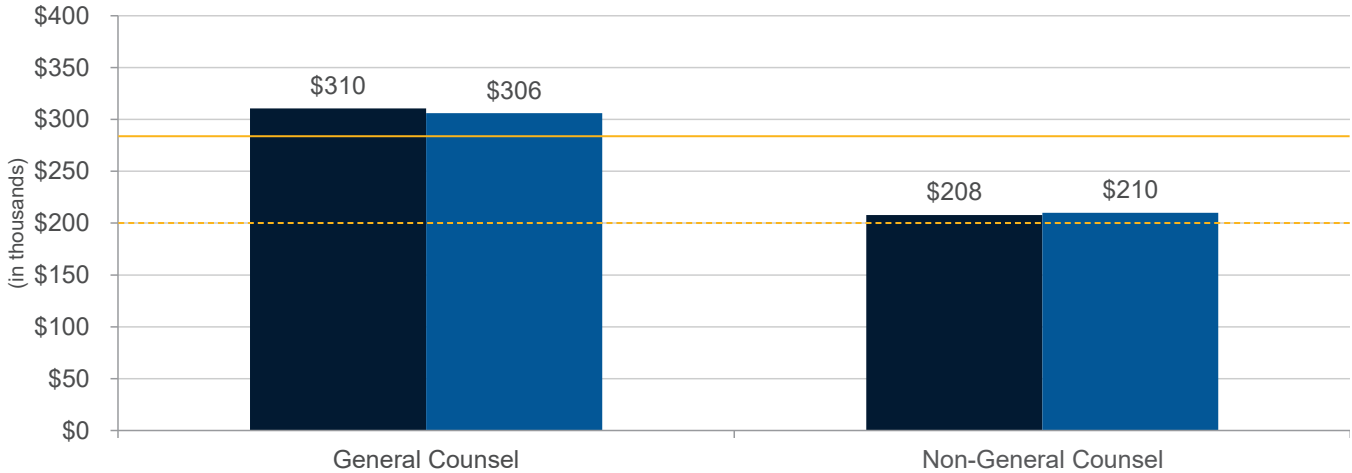

Compensation and Years of Experience

Total compensation for General Counsel does not seem to follow a strict pattern based on years of experience. Non-GCs' total compensation seems to follow a more linear pattern: as lawyers gain more years of experience, their total compensation tends to increase.

- › The reason for the variance in General Counsel total compensation could be that the lawyer who rises to the level of GC is the one identified as “special”, and often that “specialness” is not linked exclusively or even primarily to years of experience.
- › Secondly, compensation is based on the value an individual adds to an organization. Once a certain threshold of experience has been achieved, the years of experience beyond that become only one component of that value. The more senior a lawyer becomes, other factors beyond years of legal practice have more of an impact on the value she/he brings. ■

DEFINITION OF TERMS

GENERAL COUNSEL (GC)

Positions identified as General Counsel or Chief Legal Officer

NON-GENERAL COUNSEL (NON-GC)

In-house attorney positions not identified as General Counsel or Chief Legal Officer including Deputy General Counsel, Managing Counsel and other Non-GC roles.

BASE SALARY*

The fixed amount of money paid yearly by the employer for work performed reported in US dollars. Base salary does not include benefits, bonuses or any other potential compensation from an employer.

BONUS

For the purposes of this report, only performance related cash awards were included. If the bonus was stated as a target value the maximum target value was used in the calculation.

TOTAL COMPENSATION

Total compensation is the sum of base salary plus bonus. In instances where no bonus was provided, base salary was used as total compensation.

REVENUE

Revenues for companies are sourced from Data.com which receives monthly updated company information from Dun & Bradstreet.

AVERAGE

The sum of all data points divided by the number of data points

MEDIAN

The middle value in a list of numbers in numerical order from smallest to highest. While an average can be distorted by “outliers” — data that is abnormally high or low — a median is not.

MAXIMUM

The highest numeric value in each category

MINIMUM

The lowest numeric value in each category

Continued on next page >

**For salaries reported in local currency, conversion to US dollars was calculated using the yearly average currency exchange rate provided by the IRS for 2015 and 2016.*

INDUSTRY

Industry categorizations are based on Standard Industrial Classification (SIC) codes. SIC codes are four-digit numerical codes assigned by the US government to business establishments to identify the primary business of the establishment.

The SIC codes can be grouped into progressively broader industry classifications. To create a meaningful data sample, all industries represented in this report are identified by their SIC division designation.

SIC	Industry
01-09	Agriculture, Forestry, Fishing
10-14	Mining
15-17	Construction
20-39	Manufacturing
40-49	Transportation & Public Utilities
50-51	Wholesale Trade
52-59	Retail Trade
60-67	Finance, Insurance, Real Estate
70-89	Services
91-99	Public Administration
083	Forest Nurseries and Gathering of Forest Products

REGIONS

› **Within the US:** Based on the four statistical regions defined by the United States Census Bureau

› **Outside the US:** Identified by the business areas defined by Major, Lindsey & Africa

Region	States/Countries
Northeast	Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont, Delaware, New Jersey, New York, Pennsylvania
Midwest	Illinois, Indiana, Michigan, Ohio, Wisconsin, Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota
South	Florida, Georgia, Maryland, North Carolina, South Carolina, Virginia, District of Columbia, West Virginia, Alabama, Kentucky, Mississippi, Tennessee, Arkansas, Louisiana, Oklahoma, Texas
West	Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah, Wyoming, Alaska, California, Hawaii, Oregon, Washington
EMEA	All European nations, all African nations, the Middle East, Iran, Russia
APAC	Southeast Asia, East Asia, Polynesia, Australia, New Zealand, Melanesia, Micronesia, South Asia, Central Asia
Latin America	Central America, South America, Caribbean
North America Outside the US	Mexico, Canada
